

THE FLORIDA SHIP CANAL SCHEME.—A further conference was held in Washington a few days ago between Colonel Lold Aspinwall, representing the Florida Canal Company, and Senator Jones representing the Florida State authorities, on the subject of the proposed ship canal. Colonel Aspinwall presented what may be considered the ultimatum of the company. The directors ask a fair and liberal charter in return for the enhancement of property which, they assert, will follow the completion of so important and valuable a work. It remains now for the Governor and Legislature to do their part to secure so great an improvement for the State. The European capitalists, who have advanced the money, cannot afford to wait a couple of years for the next regular session of the Legislature. They want to see something done approximately soon. If nothing is to be done for two years the capital now pledged cannot be kept together. The several points of argument were entertained by Senator Jones, to be referred in due season to Governor Drew, and the conference ended.

The Secretary of State has received a report from Commodore Shufeldt, commanding the Ticonderoga. The report gives an account of a reconnaissance of the Saguni and Mahpah rivers and of Fisherman Lake, on the West African coast. The country is described as luxuriant in vegetation and capable of great development in a commercial point of view. The headwaters of the Saguni are the favorite pasture land of immense herds of African elephants and promise to become an important field of operations for ivory hunters. The report is lengthy, mainly given to details which are of value to the Hydrographic office.

The Argentine Republic seems destined to become a formidable competitor with the United States in the grain markets of the world. The exports of wheat from that country for the present year will foot up 6,000,000 bushels. This amount is expected to be doubled next year and quintupled the year after. These predictions are based on the present heavy immigration into the Republic from Germany, France, Spain and Italy, particularly from the last named country.

The latest instance of Chinese enterprise is recorded by the San Francisco Post, which states that Postoffice Agent Sharp has arrested, at Benicia, a Chinaman named Ah Ken, who had fifty letters in his possession, only one of which had a postage stamp on it. It has been ascertained that for some time past this Chinaman has been in the habit of carrying a private mail between that city and Sacramento, which is a violation of Section 3,982 of the United States Revised Statutes.

THE NICARAGUAN CANAL ROUTE.—A request has been received from Nicaragua that Civil Engineer Menocal, U. S. N., be allowed to visit that country and complete, under its auspices, the work on certain unfinished portions of the survey of the Nicaraguan route for the proposed inter-oceanic canal. Mr. Menocal formerly did work under that government. The request for his aid now has been granted by Secretary Thompson, to whom it was referred. Mr. Menocal will shortly leave this country for Nicaragua.

The official announcement that the German Government has relaxed its opposition to the silver currency so far as to be willing to discuss with the United States a proposition for an international agreement upon the bi-metallic standard is very important. This action on the part of the Government, whose consent has been most necessary to the success of the proposed international discussion, doubtless means that the conference is assured, and is a gratifying indication of a probable agreement.

The Trustees and officers elect of the Humboldt D. A. M. & V. Society are: J. L. Guthrie, President; L. L. Rickard, Vice President; Fred. Reid, Secretary; Frank Naramore, Treasurer; and W. T. Burns, L. B. Morse, J. H. Job A. W. Fisk, C. A. LaGrave, J. R. Harvey and J. L. Wiley, Trustees. The Trustees at a meeting held last Friday evening decided to have a Fair this Fall.

The wife of a London physician, according to Truth, was mixing some meal for her fowls when she lost her wedding ring from her finger without noticing the loss. This was in the middle of February. On the 8th of April she was at breakfast eating an egg, and her spoon striking the yolk of the egg, which was of extraordinary size, found the ring.

We rather suspect the above has been gotten up by our British cousins to make us think they can get ahead of us in some things.

THE TWIN RELIC.

The Administration of President Hayes will have a never to be forgotten niche in the history of the country should it succeed in blotting out polygamy, so long a scar upon the fair name of America. The recent stand taken by the Administration upon this question seems to warrant the belief that the President is determined to carry out something so long demanded by the people of the country. The recent decision of the Supreme Court in the Reynolds case, wherein polygamy was declared to be bigamy, left no excuse for longer delay on the part of the National authorities. It is amazing how this branch of Mormonism has been allowed to flourish so long. It is not to the credit of this Government that so many immigrants have been received into coming to this country, or the sole purpose of sustaining an institution in direct conflict with the moral laws of the Republic, and the quicker the evil is abated, the greater will the act be appreciated.

VALUE OF THE ARCTIC ROUTE.

Speaking of Nordenskjold's feat, the Tribune says: The practical value of this Northeast passage has yet to be determined. It will, at all events, be greater than that of the Northwest passage, for which Sir Robert McClure was knighted and received a reward of \$25,000. A letter from Nordenskjold's assistants gives an interesting account of the Tchudi, a peculiar race inhabiting the Northeastern part of Siberia. They look very much like Greenlanders: are small but alert; have a brownish-yellow skin, with coal-black eyes, and singular, joyless, frozen expression of face. They dress in skins and feed on sea flesh. The women are tattooed in the face. A dictionary has been made of the language, comprising about 300 words, and will no doubt prove of interest to linguists, as the tongues of the Polar race have hitherto been as great a puzzle to philologists as those of the negroes of tropical Africa.

GRANT IN JAPAN.

A Yokohama dispatch of July 17th says of Grant's reception in Japan: The reception to ex-President Grant in Tokio is unprecedented in Japanese history. In addition to demonstrations by the Government citizens have given lavish entertainments on a sumptuous scale. Every day and night there were fresh novelties for his diversion. General Grant had an audience with the Emperor on July 4. His Majesty alluding happily to a coincidence of the date. The sole obstacle to harmony is caused by the demeanor of the English officials, who persistently keep aloof from General Grant and decline to give salutes or recognition. It is not clearly understood whether this in consequence of orders from home or otherwise. There is much comment thereupon, and it is distinctly known that General Grant is keenly sensitive to slights. General Grant, after visiting various points, will sail for Yezo. He will start for America the last week in August.

A WONDERFUL WORK.

An American engineer, who, being engaged in the construction of a railway in China, has had unusually favorable opportunities of examining the famous "Great Wall" built to obstruct the incursions of the Tartars, gives the following account of this wonderful work: The wall is 1,728 miles long, 18 feet wide, and 15 feet thick at the top. The foundation throughout is of solid granite, the remainder of compact masonry. At intervals of between 200 and 300 yards towers rise up 25 to 30 feet high and 24 feet in diameter. On the top of the walls and on both sides of it are masonry parapets to enable the defenders to pass unseen from one tower to another. The wall itself is carried from point to point in a perfectly straight line, across valleys and plains and over hills, without the slightest regard to the configuration of the ground, sometimes plunging down into abysses a thousand feet deep. Brooks and smaller rivers are bridged over by the wall, while on both banks of larger streams strong flanking towers are placed.

WHAT SENT YOUNG NAPOLEON TO AFRICA.—A romantic tale is told of the late Prince Imperial, which may explain the unusual grief betrayed by the British royal family at the untimely death of the young Napoleon. The Prince, it is said, was passionately in love with the Princess Beatrice, and at a ball, in the interval between the dances, she said "I had rather see you in a battle-field than in a quadrille." Her wish was law to him, and to the battle-field he went to prove his devotion. On parting with the Queen, she placed a diamond ring upon his finger, and it may be that he then revealed his secret. When at length the news came that the fair seion of a noble house had been slain by the savage assegai, the Princess was overcome with grief and remained long insensible, while Victoria's visit to the Empress was marked by the most poignant tokens of sorrow. The Prince of Wales said of the murdered Napoleon, "I loved him as a brother." There are other circumstances which corroborate the story, which, if true, will lead to a deeper regard to the memory of one whose life was so full of promise, and blighted so soon.

No assessment has been levied on the stock of the North Benanza mine. How the report that an assessment had been levied got abroad and into the newspapers the managers of the company do not know.

NEWS OF THE MORNING.

Gen. Thos. H. Williams is reported better.

Twenty-nine new cases of yellow fever at Memphis on Sunday—five yesterday.

The Emperors of Austria and Germany met at Gastein yesterday. The two sovereigns embraced cordially.

W. H. Vanderbilt has just given \$100,000 for a gymnasium and the erection of a civil engineering and scientific hall on the grounds of the Vanderbilt University.

It is reported that the Democrats and New Constitutionists have split on the question of putting up a fusion municipal ticket in San Francisco and that both will run straight tickets.

Special dispatches are very contradictory as to Germany's intentions relative to the coinage question. One says it is understood that the government is making careful inquiry into facts in view of a decision as to the proposed reintroduction of the bimetallic standard.

William Barton was shot and, it is thought, mortally wounded, by Clay Mahan at 8 o'clock Sunday night, at Hollister, Cal., in front of Eastman & McClure's saloon. Bartoa had been threatening Mahan's life because the latter had once arrested him on a charge of burglary, and Mahan claims to have acted in self-defense.

The imprisonment of the Apostles seems to have set the Mormon priesthood wild, and the Desert News, the church organ has teamed with the most violent and incendiary articles for the past two evenings. Open threats are made against the Government officials and all who have been instrumental in enforcing the law in Utah.

A MYSTERIOUS CASE.

A man named John Colman was buried at Washington, Ohio, who died of a disease wholly unnamable by the medical men, who were unable to treat it with any success. Less than a year ago he commenced itching about the neck, and shortly the skin commenced to thicken, and by the middle of last Winter the man's flesh and every part of his body had become thick and hard, appearing about one-half inch thick, and assuming a bright yellow color. All the time he suffered untold misery—an indescribable itching sensation that never left him. He consulted numerous physicians there, and none could tell him what the name of his disease was or do him any good. He then consulted with one of the most eminent physicians of Cincinnati, who told him that his disease was a remarkable one; he prescribed for him, but nothing could alleviate the man's sufferings. Three weeks ago he was taken down, before that being able to be about and do some work. He seemed to die an easy death. The medical men are completely at sea for a diagnosis for this disease. No post mortem was held on the body.—[Ex.]

AN INCOME WITHOUT CARE.

By the combination method of operating in stocks a handsome income can be secured without care. Capital in any amount, from \$10 to \$50,000, may be used with equal proportionate success. By this system Messrs. Lawrence & Co., Bankers, N. Y., pool the orders of thousands of customers of various sums, into one vast amount, and co-operate them under the most skillful management, dividing profits monthly. Each shareholder thus obtains all the advantages of the largest capital and experienced skill, and the percentage of profits is very great; 20 will pay 100 in 30 days; \$250 will return \$1,825, or 7 1/4 per cent., on the stock and so on, as the market varies. A prominent publisher of the Book & Mail (N. Y.) Daily Argus, made \$104 15 on an investment of \$20 00, in October. Hundreds of others are doing even better. Messrs. Lawrence & Co.'s new circular has "two unerring rules for success in stock operations" and full information, so that any one can deal in stocks. All kinds of bonds and stocks wanted. New Government bonds supplied. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City.

REMARKS AND CONDITIONS.
Nominations in stakes must be made to the
Secretary of the fair on the 2nd day of August,
1879. Entries for the purpose must be made for
Monday's races on the 4th day preceding; and for
Wednesday's races on Monday, and for Friday's
races on Wednesday, at the regular time for
nominations, and as determined by the rules. Those
who have nominations in stakes must name to the
secretary in writing which they will start the
day before the race at 8 P. M. Horses entered
in purses can only be drawn by the consent of the
judges.
The full of the Pacific Blood Horse Association
will govern running rules.
The winner of the stake for 3-year olds to be
run at Sacramento, Sept. 10th, 1879, to carry 5 lbs.
extra, and of Friday's 3-year olds to carry 5 lbs.
extra. Should the same colt win both of these
stakes it shall carry 10 lbs. extra.
All horses entering for State purses must be
owned and kept in Nevada and California east of
the Sierra Nevada for six months prior to day of
race.
Entries to all trotting purses will close Sept.
1st, with the Secretary.
Five or more to enter, and three or more to
start all races for purses.
A local Trotting & a citation rules to govern
trotting races. Pacific Coast Blood Horse As-
sociation rules to govern running races, except as
above.
Each day's races will commence promptly at
one o'clock, P. M.
All entries must be directed to P. B. Comstock,
Secretary of the Society.

MISCELLANEOUS.
DR. SPINNEY,
NO. 11 KEARNY STREET.
TREATS ALL
Chronic and Special Diseases.
YOUNG MEN
WHO MAY BE SUFFERING FROM THE
effects of youthful follies or indiscretion, will
do well to avail themselves of the great
benefit of Dr. SPINNEY'S treatment. It is a
cure for every kind of venereal disease, and
is a cure for every kind of disease which
he undertakes and fails to cure.

MIDDLE-AGED MEN.
There are many at the age of thirty to sixty
who are troubled with too frequent evacuation of
the bladder, often accompanied by a slight
smarting or burning sensation, and a weak-
ness of the system. A member of the patient can not
account for it, and finding the ordinary remedies
a dry sediment will often be found and some-
times small particles of albumen will appear, or
the color will be of a thin milky, light green,
changing to a dark and turbid appearance.
These are many men who die of this difficulty
ignorant of the cause, which is the recent stage
of venereal disease. Dr. S. will guarantee a
perfect cure in all such cases, and a healthy
regeneration of the genital urinary organs.
A price of \$100—10 to 4 and 5 to 8, Sundays
from 10 to 11 A. M. Consultation free. Thorough
examination and advice, \$5.
